Thevur,Salem

Summary

Motivated Full Stack Python Developer eager to contribute technical problem-solving skills to dynamic web projects. Possess a solid foundation in Python back-end development, modern front-end frameworks, and database management. Driven to build efficient, scalable web applications and continuously expand expertise in full-stack architecture.

Education

COIMBATORE INSTITUTE OF ENGINEERING AND TECHNOLOGY, BACHELOR OF ENGINEERING IN COMPUTER SCIENCE AND ENGINEERING

2023 – 2026 | Coimbatore
CGPA-6.47

KONGU POLYTECHNIC COLLEGE, DIPLOMA IN COMPUTER TECHNOLOGY

2020 – 2023 | Erode
Percentage-91

SRI SAKTHI SUPREME IDEAL VIKAS MATRIC HIGHER SECONDARY SCHOOL, SECONDARY SCHOOL

2019 – 2020 | Erode
Percentage-62.8

Skills

Languages: — Html,Css,JavaScript,Python and Mysql

Libraries & Frameworks: — Pandas, NumPy, Seaborn, Flask, Streamlit And Matplotlib

Machine Learning: — Data visualization, Data Cleaning & Preprocessing

Tools & Developer Platforms: — GitHub, VS Code, MS Office, Oracle VirtualBox, Computer Hardware

Projects

AI-POWERED PREDICTIVE MAINTENANCE SYSTEM FOR INDUSTRIAL EQUIPMENT

2026

An AI-Powered Predictive Maintenance System for Industrial Equipment is a technology solution that uses artificial intelligence (AI), machine learning, and sensor data to predict when industrial machines are likely to fail , before the failure actually happens

CYBER HACKING BREACH DETECTION & PREDICTION USING XGBOOST

2026

The Cyber Hacking Breachers Detect and Predict project focuses on identifying and predicting malicious URLs using machine learning techniques. By leveraging the powerful XG-Boost algorithm, this project analyzes various URL features such as structure, keywords, SSL status, and domain information to detect and predict potential cyber threats

ANALYSIS AND PREVENTION OF AI-BASED PHISHING EMAIL ATTACKS

2025

To develop an AI system that can effectively identify phishing emails. To create a classification system that differentiates between spam and non-spam email messages. We leverage a dataset along with the XG-Boost algorithm for spam detection, focusing on the necessity for real-time identification

Awards

Cyber Hacking Breaches Detection and prediction Using ML,
Coimbatore Institution of Engineering and Technology
2026

Technical Events, *Karpagam College of Engineering*
2024

Service Technician, *Kongu Polytechnic College*
2023

Experience & Internship

Machine Learning Intern, Grandtwin

02/2026 – 05/2026 | Chennai

- Collaborated on data-driven tasks, practicing model evaluation and data cleaning techniques.
- Gained practical exposure to real-world development workflows, managing project timelines alongside academic requirements.

TRAINING / COURSE

Completed Data Analyst, *NoviTech R&D Pvt Ltd*
2026

- Duration:1 Month
- Mode: Online

Completed Full Stack Development, *NoviTech R&D Pvt Ltd*
2026

- Duration:1 Month
- Mode: Online

Completed Python Basic, *Digilabs*
2024

- Duration: 1 Month
- Mode: Online

Certifications

Essentials of Cloud Computing, *Infosys Springboard*
2025

Explore Machine Learning Using Python,, *Infosys Springboard*
2025

Introduction to Artificial Intelligence, *Infosys Springboard*
2024

Fundamentals of Deep Learning, *NVIDIA*
2024

Introduction to Natural Language Processing, *Infosys Springboard*
2024

STRENGTHS

- Collaboration Flexibility
- Embracing New Technologies
- Teamwork
- Problem Solving
- Effective Communication
